Up to 20% generation gain from the rear-side
The grid line transparent back sheet increases the black reflection, and the power generation gain increases with the black light

Longer power output life span
Anti PiD, low acetic acid concentration, ensure the module linear power output for 30 years

More than 25% module weight lighter
Compared with the dual glass module, the weight is reduced by 25% which is easy to install and save the cost of BOS

Strang environmental adaptabil
Certified by Dust-Sand, Salt-Mist, Ammonia etc. weather resistance tests

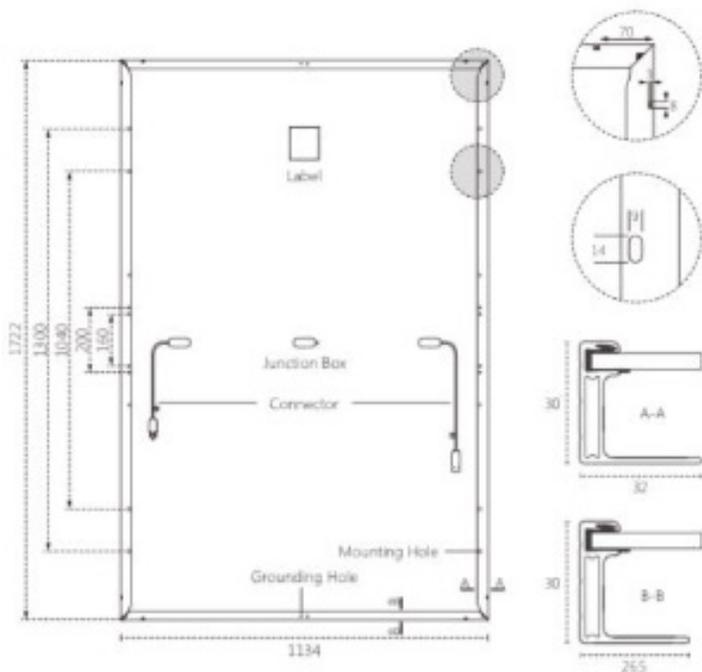

Higher generation efficiency and stability
Low current, low hotspot and better low irradiance performance, more stable power generation

Select Grade A crystalline silicon solar cells
Grade A crystalline silicon solar cells make high-power output with cost effective.
